At RSL Care SA we understand that many people have differing needs and try to ensure that we meet those needs in a caring and supportive manner to best benefit all of our residents.

If, after reading through the handbook, you still have questions please don't hesitate to ask our Care Manager or any of our staff for assistance.

RSL Care SA's range of accommodation, support and care services are detailed below:

Residential Aged Care

The War Veterans' Home

A 95 bed residential care facility located at 55 Ferguson Avenue, Myrtle Bank. The Home is divided into areas named after military campaigns: Kapyong, Kokoda, Tobruk Cottages (Memory Support Unit), Bangka, Gallipoli and Long Tan.

Morlancourt

A 61 bed residential care facility located at 18 Trafford Street, Angle Park. There are seven wings that form Morlancourt. They are named after veterans who have a distinguished military service. They are Knight, Rechner, Herbert, Opie, McKinna, Felmingham and Douglas.

Retirement Living

Co-located at the War Veterans' Home in Myrtle Bank are 16 independent living units and 9 apartments.

RSL Care SA also has 36 independent living units at Sturt Village in Marion and 31 independent living units at Hamilton Retirement Village in Glengowrie, as well as 136 independent living units at Waterford Estate Retirement Village in Murray Bridge.

Home Care

Home Care services are provided within our Retirement Living Villages that are co-located with our Residential Aged Care services. Home Care services are available to these Retirement Living resident who have received a home care package from the Australian Government Department of Health.

Andrew Russell Veteran Living (ARVL)

RSL Care SA has 10 units at Sturt for emergency transit accommodation for contemporary veterans that are homeless or at risk of homelessness.

Andrew Russell Veteran Living (ARVL) Affordable Housing

Providing longer term affordable housing options for veterans, their families or emergency services personnel. There are 16 units at Campbelltown, 7 units at Angle Park, and 15 units at Wallaroo.

OUR HISTORY

RSL Care SA was formed when the RSL SA merged its affordable housing and aged care assets with the War Veterans' Home (WVH) Myrtle Bank. This merger occurred on 1st January 2012.

The WVH, although a legal entity in its own right, considered itself part of the RSL "family" and as the RSL SA and WVH were providing similar services to a similar client group, it was a logical progression for the assets of the RSL SA to be merged with the WVH for the continued benefit of the aged and affordable housing veteran communities.

Key benefits of the merger included a single governance structure, a consolidated asset base for operational growth, management synergies and economies of scale.

The origins of the WVH date back to 1915 with the efforts of a community group raising funds aimed at providing a home for soldiers returning from WW1. Through the efforts of the Soldiers Home League, the Home opened in March 1917 using a farm homestead on 3 acres of land known as 'Myrtle Bank'. It has since gone through many changes but its ethos of supporting the ex-service community has remained constant.

It has developed from a volunteer run homestead providing modest accommodation for returned soldiers to a modern and professionally run facility providing high quality care for 95 residential aged care residents, and retirement living accommodation and related services.

In 1996, the Board amended the constitution to enable war widows, spouses of veterans and residents from the general community to be admitted to the home. As a consequence of that

decision women were admitted to the Home for the first time in April 2000, which was a significant milestone in what had previously been an all male domain.

The origins of the RSL SA also go back to WW1. As part of their objective of supporting veterans and ex-service personnel and their partners, their operations have included the provision of several affordable housing options in Campbelltown, Wallaroo and Clovelly Park. In 1997, the RSL SA also built the RSL Villas at Angle Park which was a 55 bed residential aged care facility with some adjacent affordable housing.

The RSL Villas underwent a considerable redevelopment and refurbishment in 2018/19 to become a 61 bed facility, to remain relevant in an ever changing and evolving industry. In 2019, the Board of RSL Care SA made the strategic decision to change the name of the RSL Villas to Morlancourt. This was done as there was confusion in the community about who could apply to become a resident, as many thought residents needed to be linked to the RSL. Morlancourt is a lesser-known but very important battle of WW1 and ensures that a focus remains on our military links and heritage as well as embracing the wider community.

RSL Care SA History

RSL CARE SA

RSL Care SA expanded the retirement living portfolio by purchasing Sturt Village in Marion, and Hamilton Retirement Village in Glengowrie in 2014, increasing the number of retirement living units on offer from 23 to 90.

In March 2017, RSL Care SA took over the pilot program 'Homes for Heroes', which was being run by the RSL SA (funded by RSL Care SA and RSL LifeCare NSW) and renamed the program the Andrew Russell Veteran Living (ARVL) program. The ARVL program is aimed at providing transit accommodation for contemporary and ex-service personnel who find themselves either homeless or at risk of homelessness. The affordable housing sites and houses already owned by RSL Care SA were moved to the ARVL portfolio and in July 2017, RSL Care SA purchased a 10 unit property in Travers Street, Sturt as the permanent home for the ARVL program.

In 2016, RSL Care SA developed a Vietnam Veterans Social Group program which provides a friendly and safe environment for Vietnam Veterans to come together to share their experiences and work through their hardships. The program has been recognised with several national and state based awards and continues to develop and evolve as the participants needs change. The social group has been extended to include all veterans and not just those from the Vietnam conflict.

Late 2017, as part of the planned growth strategy, RSL Care SA purchased the Waterford Estate Retirement Village in Murray Bridge. Waterford Estate is a 136 home village with a large community centre, 2.5 acres of wetlands, boat and caravan storage as well as a vacant parcel of land for further development. RSL Care SA was successful in applying for 72 new residential aged care bed licences for the vacant land and will now be building 'Romani', a new aged

care facility on this site in Murray Bridge.

RSL Care SA is a "not for profit" organisation, is incorporated under the Associations Incorporation Act, and has Public Benevolent Institution status, which ensures that any surplus is utilised for the direct benefit of our objects and mission. The merger in 2012 created a sound base for growth and RSL Care SA is now recognised as a leader in providing a range of accommodation and support options to the veteran, ex-service and broader community of South Australia.

For safety reasons valuables and large sums of money should not be brought into the Home or kept in your room. For smaller valued items a locked cupboard/drawer or safe is provided in your room.

As advised by SAPOL we recommend, family members take photos of residents' items to ensure there is an accurate record of belongings. We also encourage residents to limit cash kept in their rooms to \$50 or utilise trust account access.

However, this will only occur after consultation with you and your family or representative. A resident would only be asked to leave the facility under the circumstances described in the residential care service agreement.

Please note: where a resident is accommodated in a Memory Support Unit, it is assessed as non-mobile. Staff will consult with the representative to find alternative and more clinically appropriate accommodation within the same service but outside the Memory Support Unit.

You are encouraged to bring your own personal television* or radio, however they will need to be inspected by our maintenance department and tested and tagged accordingly. CULTURALLY SPECIFIC NEEDS

Culture defines almost every aspect of our lives: how we nourish our families, how we respond to trauma, how we build our community networks. When traveling to different countries, it's easy to see how cultural boundaries take shape across geographic barriers. But these differences also manifest in communities with diverse populations - people of all different backgrounds living in a shared environment such as residential aged care. Sharing space with people from other cultures is more than tolerating each other's customs; it's valuing and affirming the ways people from different backgrounds enrich each other's lives.¹

At RSL Care SA we aim to be sensitive and supportive of individual cultural needs of residents. Our staff respond to all residents by affirming diversity and embracing the values of people from different social or cultural backgrounds, as well as supporting all residents within the shared community to develop these skills also.

DOCTOR

You have the right to retain your own doctor and we will facilitate their attendance however there are also doctors who provide a 24-hour service and conduct a clinic on site during the week.

TALCUM POWDER

Residents are asked not to use talcum powder in the interest of health and safety for themselves and staff.

VETERAN SUPPORT OFFICER

In alignment with our mission, RSL Care SA employs a veteran's support officer who works across the residential care facilities to support our veterans and ex-service community. This includes the facilitation of our weekly Veterans social group which provides a friendly and safe environment for veterans (including those not accommodated at our residential care facilities) to come together in a social setting to share their experiences and work through their hardships together.

The Janus Approach continually improves and enhances the quality of life with all residents by transforming the culture of care in our facilities from task focussed to truly person-centred. The approach enables services and care needs to be adapted to meet the priorities and 'picture' of quality of life for each individual resident as well as the group of residents as a whole. Residents of RSL Care SA require care delivery to be person centred and evidenced based ensuring each resident's physical, cultural, psychological, social, sexual and spiritual needs are addressed.

Person Centred Care is not a new concept and has been in practice, in varying forms, for several years. Person centred care provides a set of guiding principles for our actions in the field of care that enable all people in our care to be in relationship with others. These principles are based on a V.I.P.S structure, where each person is Valued, is Individual and unique, is cared for considering the person's Perspective and support the person to be Socially confident.

JANUS APPROACH IN DETAIL

In order to deliver the Janus Approach at RSL Care SA, we have identified speciality areas of care provision which are addressed through the 'Janus Keys'. The leader for each respective 'key' is accountable for maintaining current evidenced based practice and applying this in the performance monitoring of care delivery to the residents of RSL Care SA.

DIGNITY IN CARE

The Janus Approach ensures that a comprehensive life history or "Life Story" is gathered for each resident in partnership with the resident and families who wish to be involved. From this life story and with resident and family collaboration, staff are able to determine what quality of life means to each resident. Life stories and what is important for each person are taken by staff who have received specific training in this area of assessment and are generally conducted over several weeks as a relationship of trust is built with the individual resident (or family).

Dignity for each resident is promoted through an understanding of their individualised goals of care, personal preferences and individual 'life story'. Staff are assisted to familiarise themselves with these 'life stories' in order to deliver the appropriate care as well as adhere to RSL Care SA principles of dignity. These principles were developed in partnership with residents, representatives, floor staff, management and the Board of RSL Care SA.

The Janus Approach

JANUS DIGNITY PRINCIPLES

SEE ME

To “see me” is to see who I am, not what I am

1. Value my story, know my past, my present and what I want for my future
2. Know who I want to be into the future
3. Know how to make my day enjoyable

WELCOME ME

To “welcome me” is to create a community that I can belong to

1. Help me transition my space to my ‘home’ and a place of tranquility
2. Help me develop trust in those who provide care and those who live with me
3. Enable me to have companionship and camaraderie with those I choose

INCLUDE ME

To “include me” is to remember that I am a part of all that happens in my life

1. Acknowledge me and include me in your conversations and actions
2. Use language that includes me and does not ‘label’ me
3. Involve me in discussions and information for me to make decisions

SUPPORT ME

To “support me” is to be *with* me on my emotional journey

1. Understand the challenges I face, provide me with comfort or space to be on my own
2. Celebrate with me in my successes and achievements
3. Work with me to retain my sense of worth

EMPOWER ME

To “empower me” is to encourage and help me to be all that I can be to the end of my days

1. Enable me the freedom to preserve my differences and identity
2. Encourage me to make choices that enhance my perception of quality of life
3. Encourage me to be as independent as I am able to be

MENTAL HEALTH

Mental health illness and disorders are as important as physical care needs and often have as great an impact on physical and social wellbeing. Some examples of mental health conditions experienced by residents within RSL Care SA are depression, anxiety and confusion. These can be suffered by any resident at any time, and individuals respond differently to these conditions and staff work with residents and families to support residents diagnosed with these conditions, ensuring that all staff are aware of how to support residents to achieve the best outcome in-line with the resident's goals of care.

We support those with mental health conditions through a trauma informed care framework that helps staff engage with trauma affected people, deliver support in a safe and sensitive manner, and contribute to good functioning for the individual affected by the trauma.

SEXUALITY AND INTIMACY

The Janus Approach recognises that the need for love, affection, physical closeness and contact continues throughout life, including for residents who are living within an aged care setting. People living in an aged care facility will often still have sexual desires and be capable of acting on those desires, as well as having a need to express themselves sexually, however, this may be difficult for residents to disclose as it has always been a topic kept private or only shared with people they trust.

As part of this Janus Key and an individual resident's quality of life, it is also important to understand the level of intimacy they need or desire. Support to achieve emotional connection and intimacy at any level are developed with the resident (or family), to support each individual resident's need for intimacy and sexual expression in whichever form this may take.

MEANINGFUL ENGAGEMENT & SPIRITUALITY

The Janus Approach recognises that all individuals have spiritual needs which may not always be based on religious belief or lack of belief. The need for social and leisure programs form an integral part of daily living that have purpose, through enhancing and strengthening the physical and psycho-social capabilities of the resident and increasing self-esteem, self-worth, connection and meaning. Through this Janus Key we support residents to have a wellbeing program that is designed to promote each individual's independence consistent with individual abilities and wishes. A resident's needs (social, spiritual or emotional) can change as they are faced with emotional challenges and a significant sense of loss, which can be associated with a move to a new environment, changed circumstance or adjusting to life in an aged care setting.

The Janus Approach

Residents have the choice and opportunity to participate, or not, in various programs, including cultural practices, customs and rituals that residents have undertaken throughout their life and are not isolated to a country of birth. It is also important for staff to enable the 'space' for the resident to change their mind regarding these preferences.

PALLIATIVE APPROACH

The Janus Approach adheres to the Palliative Approach in Residential Aged Care (2005). This approach ensures that residents with life limiting illnesses are afforded quality of life throughout their journey within the residential aged care setting. This Janus Key affirms life and respects dying as a normal process. It neither hastens nor postpones death, but rather aims to enhance the quality of life whilst also positively influencing the course of the illness.

This Janus Key also recognises that there are three very distinct phases of palliation (greater than 6 months to live, less than 6 months to live, and end of life approaching within a week) and ensures that within each phase the resident is provided with:

- Autonomy, dignity, comfort and respect
- Honest, open discussion about conditions and treatment options
- Access to any available evidence-based treatment options
- Effective management of pain and other distressing symptoms
- Quality of life, as defined by them, in the circumstances
- Assurance that any cultural or spiritual wishes will be upheld
- Access to the people they wish to be present

Our staff will meet with residents and families on admission and throughout their admission period to ensure that staff and families have a sound understanding of the type of care the resident wishes to be delivered at each stage of palliation.

MAKING EATING SOCIAL & SENSATIONAL

The MESS (Making Eating Social and Sensational) recognises that there is more to meals than just nutrition alone, there are also significant positive social outcomes of sharing a meal or mid-meal snack, as well as those meals that are consumed being exciting for the senses. We have drawn on our military heritage where the MESS, is not only about eating, but moreover about the relaxation that dining together provides, social gatherings and hosting special events. We achieve this by providing residents with a selection of meals/menus that meet their preferences; providing meals that are not only nutritious, but also visually appealing, smell delicious and tasteful; and provide environments that enable social connection in multiple spaces where families can also share in the preparation, cooking and enjoying of meals with residents.

RESIDENTS VACATING THEIR ROOM

When a resident vacates a room, we would expect that family or friends would collect the belongings as soon as possible (but at least within 24 hours) in order to make the room available for the next resident. By prior arrangement, RSL Care SA can remove the resident's personal belongings within 24 hours and store them safely and securely until they can be picked up by a family member or friend, usually within 2 weeks. The sale or gifting of a resident's personal property or effects at the end of their tenure with us must not involve any member of staff. Items may be donated to the facility or another resident but only after they have been considered fit for purpose by the Residential Care Manager.

SMOKING

In the interest of health and safety, smoking is discouraged, however RSL Care SA recognises that smoking is an addiction and often a coping strategy used by people living with post-traumatic stress disorder such as our veterans. Smoking is not permitted in the buildings or individual rooms. Residents who smoke are required to be assessed by the Physiotherapist or Occupational Therapist and if necessary, safety measures implemented to be sure the resident can smoke safely. The safety of our staff, particularly from passive smoking is a high priority for RSL Care SA. In the event that the resident is unsafe to smoke and/or needs physical assistance to smoke, a quit-smoking program will be implemented and supported for the resident as RSL Care SA does not permit staff, under any circumstances, to provide physical assistance with smoking.
